Information Security Services FOR FEDERAL AGENCIES

Information system security remains one of the most critical responsibilities facing IT professionals within the Federal government today. World Events, as well as those at home, have proven just how vulnerable some agencies have been.

As an OMB-approved Information Systems Security Shared Services Center, we provide both independent and operational security services to assist you in achieving FISMA compliance. Our end-to-end service offerings complement your existing security program. Our security teams have extensive IT and Federal

government work experience. Our team members have also worked in a variety of industries in the private sector, as well as for other government agencies and the Department of Defense. As a government agency, we are positioned to understand your needs while staying abreast of current trends and regulations.

About Enterprise Services Center

In the 1980s the US Department of Transportation dedicated the resources to create an unparalleled team of professionals dedicated to supporting the diverse business needs of its agencies. Today, called the Enterprise Services Center, this group assists numerous agencies with a wide range of business needs.

ESC has become a provider of choice because we take the time to learn our customer's business processes and requirements. We first pinpoint each customer's expectations and service level needs, then use the information we've garnered to develop an appropriate support strategy.

ESC has extensive experience cross servicing other federal organizations, to include the Government Accountability Office, National Credit Union Administration, Department of Commerce, Consumer Product Safety Commission, Department of Education, US Air Force, Coast Guard, Social Security Administration, Transportation Security Administration, Office of Personnel Management, Commodity Futures Trading Commission, National Endowment for the Arts, General Services Administration, Department of Agriculture, Environmental Protection Agency, Institute of Museum and Library Services, and all of US DOT.
